**Mower only

On Thursday, November 4 through Saturday, November 6, the Wisconsin ASABE pre-professional club will hold its annual lawn mower, snow blower and roto-tiller clinic. The clinic is designed to provide preventative maintenance for your machine before the upcoming season.

The cost of this service is \$25.00 per machine. Machines may be brought to the Agricultural Engineering Lab (southwest corner of Elm and Observatory Drive) between noon and 8:00 p.m. on Thursday, November 4, or 8:00 am to 6:30 p.m. on Friday November 5. Your machine will be ready to be picked up Saturday between 8 and 12 p.m. Please respond promptly as this year **we are limiting the number of machines to 100 to ensure high quality of service.** If you return a request and we cannot winterize your machine, we will contact you. For an additional charge, we will pick up and deliver your machine(s) in: Madison, Middleton, and Monona. Machines will be picked up Thursday (all day), or Friday (all day) and will be returned Saturday. Sorry, we do not accept reel type mowers, garden tractors, or riding lawn mowers. Because this is a winterizing clinic, we are not prepared to repair equipment. **Therefore, we can only accept machines that are currently operational.**

Please note: No on-line orders will be accepted, please return the below form with payment.

Questions may be directed to Nate Dudenhoeffer, Katie Thousand, or Shane Williams (9am-4:30pm) office: 265-6737.
dudenhoeffer@wisc.edu , kthousand@wisc.edu, or sdwilliams@wisc.edu, (anytime)

Lawn Mower and Snow Blower Clinic
